9-1-1 Director Donnie Swayne and MARCS Radios representative Darrell Anderson, B & C Communications Jesse Stanley, and EMS Director Etta Sparks met with the board to discuss public safety radio communications. Mr. Anderson explained the Multi Agency Radio Communication System (MARCS) shared communications services for Ohio Public Safety and discussed the following issues pertaining to Adams County:

1. Towers - 10 towers are either located within Adams County or influence Adams County. MARCS will be spending \$3.5 million new infrastructure to upgrade the towers within the next 13 months. There are 218 towers state wide.

2. Radio System – Only one radio system will be needed once the upgrade is completed. Adams County would be under tier “1”.

3. Prices – one price for the radio/equipment and one price for the service user fee. Radios will average \$2,000.00 each with a \$20 per month per radio fee unlimited use for each radio. The radio fee covers all upgrades, maintenance, and operational costs. The service fee is guaranteed \$20.00 per radio through 2027.

4. Coverage Maps – three coverage maps - one for mobile, one for street level portable, and one “ in building” at ground level (metal & concrete block signals). Mr. Anderson will also provide a radio count of MARCS radios in the county.

5. Integrated Paging System - in order for the MARCS radio system to work in Adams County an integrated paging system is still needed.

.....

G.I.S. employee Angelena Newman met with the board to discuss future department administration, her position, and the continuity of the program.

.....

**ENGINEER / TONY ROAD PRELIMINARY ASSESSMENT**

The board held a phone conference with Engineer David Hook to discuss the following Tony Road preliminary improvement assessment for the proposed establishment:

- 1. Base/sub-base is nonexistent. Soil type conditions require excavation to a minimum depth of 16” for a sound roadway base using 8” of #4 stone, 8” of #304 stone, and a 2” depth of #57 stone surface
- 2. Drainage is nonexistent – ditch lines, roadway & driveway culverts, grading to achieve adequate drainage
- 3. Roadway is not sufficient for 2-way public access
- 4. A structure is encroaching into the roadway
- 5. General Scope of Work –
  - Roadway excavation - 4,000 CY, General excavation - 1,500 CY, Ditching - 7,900 LF
  - Road culverts (misc. diameter) – 10, Drive culverts 15, Roadway grading -13,000 SY
  - #4 stone -3,500 ton, #304 stone - 3,900 ton, #57 stone - 900 ton

This information is based on field and aerial view observation only and should not be considered as a defined estimate of work as based on field measurement.

.....

The Adams County Board of Commissioners received the following correspondence from Adams County Court Judge Alan W. Foster and Clerk of Courts Larry Heller:

The Clerk’s Office has been sending out notices and issuing bench warrants for anyone that has been delinquent with outstanding fines and court costs. The first batch of notices was effective October 2012. As of April 22<sup>nd</sup>, the office has collected a total of \$18,323.20 on outstanding fines and court costs, and closed out a total of 62 delinquent cases.

A new law is in effect, HB 197, Ohio Revised Code 1901.44, 1905.202, 1907.25, and 2947.09 which allows a court to block the issuance or transfer of registration of any vehicle for a person who fails to appear or pay fines or costs imposed by a mayor’s, municipal, county, or common pleas court. Due to the amount of outstanding fines and court costs that is owed to Adams County Court, the Clerk’s Office will be following this procedure effective April 22, 2013.

**MOTION TO ADJOURN**

It was moved by Stephen Caraway and seconded by Brian Baldrige to adjourn.

There was no further discussion and upon the call of the roll the vote resulted as follows:

**VOTE: Baldrige, yea**

**Caraway, yea**

**Worley, yea**

.....
